

## Homework #1

**Course:** COP 3223C

**Semester:** Fall 2015

**Due Date:** August 31, 2015

**Credit Value:** 2% of final grade

### **Your First Program**

- 1) Use Code::Blocks to write and execute the following Hello Earth program.

```
// HW#1 - <your first and last names>
// My first C program
#include <stdio.h>
int main(void)
{
    printf("Hello Earth!\n");
    system("PAUSE");
    return 0;
}
```

Submit your program source code through the Webcourses homework submission.

**Please name the file as HW1-<last name> and put your name as the first comment line.**
