**Homework Assignment #6**
**Course:** COP 3223C – Intro to Programming with C
**Semester:** Fall 2015
**Credit Value:** 5% of Final Grade
**Due Date**: November 20, 2015

## Building a Simple Linked List

Write a program that builds a simple linked list containing integers from 0 to 10, and then prints out the contents to the screen in ascending order. The print function must be in a separate user-defined function and it must receive a pointer that points to the head of the list.
